## **Think Bike**

September 08

*a:m web* are delighted to launch the new Think Bike website. Formerly Commuting Solutions in Rathmines, their continued expansion required a new brand, and new name. We were brought in to design and build the website and to look after the online marketing.

THINKBIKE is a Bike Store and website set up and designed to promote cycling both as an exciting leisure activity and also to make commuting by bike the most practical solution to Dublin's transport problems.

The new website in part helps publicise the new larger store and a dedicated WorkShop for fixing and maintaining bicycles.

The site is fully updatable using the *a:m* editor and contains features such as our newsletter system.

Visit the website: [http:// www.thinkbike.ie](http://www.thinkbike.ie)
